The date has not yet been determined upon, but it will probably be sometime between the 15th and 20th of the mouth. My author ity for this deciaration comes direct from the President, who make the amounc-ment by implication to a distinguished Re-publicus iduler who called upon him Thucsment by implication to a distinguished Republican leader who called upon him Threshay. The gentleman in question is a mentor of Congress who is opposed to a meeting earlier than the regular date in December, and he went to the White House therefore to obtain specific information upon that point. For this reason we desired that they slouid meet in October and check their speaker, form their committees and be ready for business by the first of Decomber. There would then be leftlight or even mine mounths which could be given up entirely to useful legislation. The Prostinct's caller left the White House satisfied that ther in the season Gen. cial to THE HERALD-Examiner Dispatch.] New Orleans, June 39.—Nearly all the details for the Sullivan-Kilrain fight have details for the Sullivan-Kiirain fight have been arranged. Bud Remand, a square man, has been given sole coatrol of the financial management as far as Kiirain is concorned. As Remand was acceptable to Frank Stevenson, he will undoubtedly be arreed upon for manager of the fight. While local prejudice is largely in favor of Sullivan, soth men may feel sure of fair play. A paper here published yesterday morning a special from New York saying a number of men who had their money on Kilrani had tried to get a man to drug Suijiran. This is but one of a hundred remarks that are Bying around here.

If the public excitement here beauty test, the coming fight will be a greater one than that between Suifivan and Ryan. It has started an athlete revival. Business and it kinds had to take a back said yesterly while merchants, shopines, elerka and others discussed the relative merits of Suilivan and Kilrain.

Ellerin's Condition.

Special to Ton Henaup-Examiner Disputch. Barrisone, Md., June.—In less thin a week Jako Kilrain will have trained training and be on his way to New Orients. That he has trained fulfillity and judiciously is best evidenced by his present stperb condition. The superdons fat about the face, chest, arms, abdomes and legs has disappeared, leaving only boxes, muscle and a moderate amount of hardened flesh. His complexion is as clear as ala-

muscle and a moderate amount of mattered leads. His completers in a scient as a clear as altabaster: there is a bright lustre in his eyes, while his form is as erect as an arrow. Those brawny lists of his, which he has been pickling with a search astern exercial times a day ever since he started in to train, are as hard as iron.

A more willing pupil than Kitrain would be hard to find. He is ready at all times to do the nightest bidding of his trainers. He server grambles or complains, and is always in good humor, except, perform the first three days of his train in, when the weather was so opnosessively not that he became irritable and cross, but that soon passed away, and in less than a week he was himself. Whosever he speaks of the fight he hever becasts about what he can do, but what he will try to do. This he says with sucha confident air as to make his friends feel very sanghine as to the result.
